## POOL CLEANERS

### AUTOMATIC VACUUM CLEANERS

**NEW**

#### KREEPY KRUISER

##### Automatic Inground Pool Cleaner

Specially designed slots and curved "fingers" climb over obstructions so Kreepy Kruiser keeps performing—unattended and without interruption.

The Kreepy Kruiser™ pool cleaner is the ultimate in carefree operation. It comes fully assembled. Just add the seal and connect the hoses. No tools required and you're on Kruise control in minutes. It even comes with a free flow gauge and adjustable speed control to ensure optimum performance.

**Features :**

- Superior vacuum power and extra-wide mouth capture large and small debris with ease.
- Silent flapper design provides quiet cleaning performance.
- Patented seal design includes specially engineered slots and "fingers" to assure the unit won't get stuck or thrown off course by main drains, tight corners, eyeball fittings, and lights.
- Built-in bumper assures free movement around steps and ladders for total cleaning coverage and uninterrupted, hands-free operation.

#### Supremely simple and relentless in the pursuit of dirt and debris

- No bags or compartments to empty or replace...dirt and debris go right to your filtration equipment...where they belong.
- No wheels or gears to jam or diaphragms to replace.
- No expensive booster pump to buy and operate...it uses your pool's existing filtration system.
- Only one operational moving part...only 8 parts in total.
- All parts are UV stable and chemical resistant for years of dependable service.
- Two-year limited warranty.

#### LIL SHARK

The GW8000 comes fully equipped, including 10m hose and accessories.

**FEATURES**

- Low flow-rate needed (5m<sup>3</sup>/h)
- Easy to install and user friendly with only one moving part for extra reliability
- Vacuums and scrubs. Patented bristle drive
- Vac handle attachment to pole for spot cleaning

## PIRANHA

The Piranha Swimming pool cleaner has a patented self-adjusting turbine, which maximizes the power from the water flow. This turbine is similar to a paddle wheel with blades that are adjustable. This feature allows the Piranha to move even at low suction and low pressure. In addition, the folding vanes of the turbine allow for the easy passage of larger debris through the cleaner.

The Piranha has an internal programmed steering system, that causes the left wheel to periodically reverse, allowing the Piranha to turn and then move into another direction. There are five different programmed turns ranging from 90 to 450 degrees. The Piranha will travel 3 to 5 meters before it turns.

The Piranha cleans more in the shallow end than any other cleaner and has no problems with uneven surfaces or unusual shapes.

### FEATURES

- Easy to handle
- Efficient programme control
- Compact construction
- Optimum suction
- Powerful turbine
- For pools of all different shapes and types
- Low-noise operation
- Weight: 10 kg
- Supplied with 10 x 1 m hose
- Warranty: 2 years\*

## AUTOMATIC PRESSURE CLEANER

### Legend II

#### Four wheel/ Front wheel drive

Automatic pressure side pool cleaner. Better tracking and stability for faster cleaning. The legend is suitable for concrete, liner and fibreglass pools, and can clean most pools thoroughly in just 1 to 3 hours.

### FEATURES

- four wheel/ front wheel drive provides superior tracking and stability
- specially designed debris channel and massive intake throat tackle debris with ease.
- heavy-duty, large capacity, twist-lock collection bag is designed for efficiency and easy maintenance
- Weight: 10 kg
- 3-year warranty\*

#### Specific features:

- no booster pump required. Provides the same thorough cleaning, but without a booster pump.
- quad-jetted vortex venturi creates ultra-strong vacuum action for superior cleaning.
- dual thrust jets for superior pool coverage.

## POOL CLEANERS

### ELECTRICAL CLEANERS

#### NEW PIRANHA TURBO CLEANER

The smallest model of our Piranha range is built to perform in the most efficient way possible. The Turbo is not programmed to climb all the way up to the water-line. It concentrates on the most polluted parts of your pool and gets the job done extremely fast thus saving the owner time and money.

#### FEATURES

**Self-contained** with internal pump, drive and filtration system.

**Systematic** straight forwards and reverse arc-turn movements controlled by internal microprocessor and patented directional turning floatation enables Piranha TURBO to clean any pool surface type or configuration without wasteful overlapping.

**Efficient** by design, Piranha TURBO cleans pools in a fraction of the time and reduces more than 50% of the wear and tear other cleaners incur. This translates into less operating hours, which saves you money and time, while providing you with greater reliability and lower maintenance issues or expenses.

**Effective** design based on more than 30 years of underwater robotic vacuum experience, Piranha TURBO's rotating scrubbing brushes loosen build-up and break down debris. To avoid clogging and to access dirt along pool edges, dirt and debris are vacuumed in through two off-center positioned underside vacuum ports.

**Microfilters** out dirt and debris, such as leaves, pine needles, acorns, burs, sand, silt, pollen and even algae and bacteria 10 times smaller than what most main pool filtration systems can remove - to ensure the healthiest swimming water for you, your family and friends.

SPECIFICATIONS	
Designed for pools	Up to 12m long / any surface or configuration
Cleaning time	2 - 3 Hours
Filtration	Self-contained, reusable filter with maximum capacity of 32 litres; Large leaves to fine particles - down to 2 microns
Flow rate	17 m <sup>3</sup> per hour
Pump motor	Brushless, individually sealed, water-cooled and with heat-dissipating and lubricating oil for longer motor life
Drive motor	Individually sealed, oil-free, water-cooled
Cable	16 m - buoyant thermoplastic rubber - No chlorine corroding Kevlar®
Wattage	140 Watts
Voltage	230 V / 50 Hz, 24 V at cleaner
Warranty	2 year
Unit weight	7,5 kg
Shipping weight	17 kg

G-Tooth™ Drive Track protects from abrasion and provides best climbing traction.

Rotating scrubbing brushes loosen build-up and break down debris.

A filtration rate of 17m<sup>3</sup>/h ensures the removal of everything from algae and silt to leaves and small stones

**NEW PIRANHA ULTRA CLEANER**

*Piranha ULTRA scrubs and vacuums out debris off the floor, walls and even grime along the waterline. Internally filtering out sand, silt, pollen and algae Piranha ULTRA operates independent of your pool's filter or pump and works without costly-to-run booster pumps. Microfiltered water is immediately thrust out to circulate the water for the cleanest and healthiest swimming and easiest pool maintenance.*

**FEATURES**

**Fast :** Intelligent guidance, complete pool cleaning in as little as 2 hours

**Scrubs :** Dual foot-long brushes rotate to scrub your pool's entire surface

**Vacuums :** Most powerful vacuum and circulation in its class

**Filters :** Internal, reusable 32 litres maximum capacity microfilter removes unhealthy impurities down to 2 microns without clogging your pool's filter

**Adjustable :** Customizable debris port widths and depths enable removal of your particular debris type from pollen to pine needles to leaves

**Mobile :** NeverStuck™ wheels roll over raised areas that beach other cleaners

**Protective :** G-Tooth™ Tracks protect pool surface and cleaner from contact

SPECIFICATIONS	
Designed for pools	Up to 15m long / any surface or configuration
Cleaning time	2 - 3 Hours
Filtration	Self-contained, reusable filter with maximum capacity of 32 litres; Large leaves to fine particles - down to 2 microns
Flow rate	19 m <sup>3</sup> per hour
Pump motor	Brushless, individually sealed, water-cooled and with heat-dissipating and lubricating oil for longer motor life
Drive motor	Individually sealed, oil-free, water-cooled
Cable	18,5 m - buoyant thermoplastic rubber - No chlorine corroding Kevlar®
Wattage	140 Watts
Voltage	230 V / 50 Hz, 24 V at cleaner
Warranty	2 year
Unit weight	8,5 kg
Shipping weight	18 kg

## POOL CLEANERS

**NEW**

### PIRANHA SELECT CLEANER with remote control

The most powerful and reliable remote controlled pool cleaner ever produced gives you the convenience and control to clean pools up to 15 m long, of any shape or surface automatically.

Piranha SELECT RC will scrub loose grime and break down debris, power wash out fine dirt from areas brushes and other cleaners can't reach, vacuum everything into its own internal filter microfilter and then circulate the clean water to give you the healthiest and lowest maintenance swimming.

#### FEATURES

- Patented turning system works without additional motors, gears or pistons
- Saves you time: Completely cleans any pool shape up to 15 m long in as little as 2 hours!
- Self-contained: NO hoses, filter connections, installation or booster pumps
- Cleans ANY pool, including floor, walls, waterline and even most stairs
- 3-Directional wireless remote control guidance for spot cleaning
- Motor-powered rotating brushes remove grime and breakdown stubborn debris
- Large capacity reusable filter
- A portion of the filtered water is diverted through 2 tubes that run from the pump to the bottom of the Elite. This pressurized water power washes heavy sand and fine silt from corners, seams and pores where brushes cannot reach!

Rotating scrubbing brushes loosen build-up and break down debris.

NeverStuck™ Rollers enable thorough cleaning without getting stuck on raised drains or pop-up heads.

G-Tooth™ Drive Track protects from abrasion and provides best climbing traction.

Power washing jets DeepClean™ dirt that other cleaners leave behind.

Customizable Vacuum Port Sizes enables removal of largest debris.

Variable Vacuum Port Depths provide greater suction deep down to remove sand, silt and pollen.

#### SPECIFICATIONS

Designed for pools	Up to 15m long / any surface or configuration
Cleaning time	2 - 3 Hours
Scrubbing Mechanism	Two foot-long All-Surface SUPER brushes
Debris Intake Ports	2 Offset for Clog-Free Operation variable in depth
Filter Debris Holding Capacity	32 litres Maximum Volume
Filtration Particle Size	Down to 2 microns
Filtration / Circulation Rate	19 m <sup>3</sup> /h
Pump motor	Brushless, individually sealed; Oil Cooled and Lubricated + Water Cooled
Drive motor	Individually sealed, oil-free, water-cooled
Surface Obstacle Avoidance	Patented NeverStuck™ Rollers
Guidance Mechanism	Patented Directional Guidance Cable Float
Timer Auto Shut-Off	Customizable Digital LED 1-7 Hours
Power Supply	StayCool™ All Weather Resistant
Electrical Requirements	230 V / 50 Hz (plug-in; no installation needed)
Cable Length / Type	18,5 m / Self-Floating; Kink-Free
Warranty	2 year
Robot / Shipping weight	8,2 kg / 16,6 kg

**TIGER SHARK**

The robotic pool cleaner Tiger Shark is a very strong and efficient cleaner that uses removable cartridges. The Tiger Shark functions with 2 motors, one for the tracks and one for the vacuuming. The robot can be equipped with gel rollers for concrete and liner pools or with high grip foam rollers for tiled pools. The Tiger Shark sucks dirt from the bottom and the walls.

Trolley with Tiger Shark

**FEATURES**

- standard CE
- recommended pool size: up to 80 m<sup>2</sup>
- cleaning speed: 18 meters/minute
- work cycle: 3 hours
- filter porosity: 5 microns
- electrical specs: 230 V / 50 Hz
- voltage in water: 24 V
- drive motor: 24 VDC
- filter motor: 24 VDC
- cleaning program: walls & bottom
- weight: 10 kg
- suction rate: 17 m<sup>3</sup>/h
- dimensions: 410 x 410 x 280 mm
- floating cord length: 18 meters
- warranty: 2 years\*

**CAYMAN**

The Cayman belongs to a brand new generation of electrical robots. Its electronical memory card, when connected via a USB port and a CD-rom software, provides all the data on the robot's activity and thus improves the quality of the off-site maintenance. Very attractive with its rounded shape and its lively colours, the Cayman features two cleaning cycles for a greater flexibility. Very innovative, the disposable polyester filters ensure an optimum efficiency of the robot. Moreover, the trolley designed to carry the robot and its transformer, also folds up to provide a perfect protection for the robot and a compact storage.

**FEATURES**

- 2 engines
- electronical memory card and USB port for self diagnostic
- cleaning speed: 16m/min
- work cycle: 5 hours or 90 minutes
- filter porosity: 50 microns
- weight: 9,7 kg
- warranty: 2 years\*
- floating cord: 18 meters
- alimentation: 24 volts DC

# POOL CLEANERS

## COMMERCIAL AND PUBLIC

### General features on commercial range:

- Working cycle: *standard 4 cleaning programmes*
  - automatic 3,5 hours
  - automatic 5 hours
  - wireless remote control
  - delay (2 hours)
- ASS-system: *Aqua Smart system enables the cleaner to completely cover the pool bottom.*
- Caddy: *All three units are delivered with a stainless steel caddy*
- Infra-red detection system: *The infra-red sensor transmits signals to the brain of the cleaner to change direction as needed*
- Wireless remote control system: *For spot-cleaning operation*
- Standard CE: *yes*
- Warranty: *2 years\**

*\* not on moving parts, subject to wear*

## ULTRAMAX JR

*The Ultramax Jr is suited to pools found in larger hotels, motels and public swimming facilities.*
